SUMMARY

Full-Stack Developer with expertise in **MERN stack (MongoDB, Express.js, React, Node.js)** and **Django** and **FastAPI** for building scalable, high-performance web applications. Experienced in **REST API development**, database management (**PostgreSQL, MySQL, MongoDB**), and containerization using **Docker**. Skilled in implementing secure authentication protocols (**JWT, OAuth 2.0**). Focused on delivering optimized, maintainable, and secure software solutions.

EDUCATION

Syed Ammal Engineering College

Bachelor of Engineering in Computer Science and Engineering

Ramanathapuram, Tamilnadu

Aug 2023 – May 2027(expected)

EXPERIENCE

Backend Developer Intern

Unityr Tech Labs

Nov 2024 – Jun 2025

Ramanathapuram, Tamilnadu

- **Tech Stack:** Django, DRF, PostgreSQL
- Built scalable REST APIs and optimized database queries.
- Implemented JWT and OAuth 2.0 for secure user authentication.
- Developed RBAC, minimizing security risks and ensuring permission-based access.
- Collaborated with frontend team to integrate and debug APIs efficiently.

Full Stack Developer Intern

VDart Academy

Jun 2025 – Jul 2025

Tiruchirappalli, Tamilnadu

- **Tech Stack:** Django, DRF, React, PostgreSQL, Tailwind CSS
- Developed an Intern Management System with role-based dashboards for admins, mentors, and interns.
- Integrated secure APIs with JWT, enabling reliable frontend-backend communication and data integrity.
- Enhanced usability with responsive UI and optimized queries.

PROJECTS

CareerFlow | *Python, Streamlit, Gmail API, Gemini AI*

- Built an AI agent to automate job applications and monitor application status in real time.
- Integrated Gmail API for email parsing, alerts, and application tracking.
- Used Gemini AI for intelligent resume-to-job matching and decision automation.

Case Crafter | *React, FastAPI, SQLite*

- Developed an AI-powered platform for automated software test case generation.
- Designed RESTful APIs using FastAPI with structured test data storage in SQLite.
- Built a responsive React UI for test input, generation, and export workflows.

CodeSage | *FastAPI, Ollama, ChromaDB, RAG*

- Implemented a privacy-first semantic code auditing system using local LLMs.
- Applied Retrieval-Augmented Generation (RAG) for contextual vulnerability analysis.
- Used ChromaDB for vector storage and semantic search over source code.

InternConnect | *React, Django, PostgreSQL*

- Built an AI-powered internship matching platform based on skills and preferences.
- Developed role-based dashboards for students and recruiters using React and Django.
- Designed scalable PostgreSQL schema and secure API integration.

GhostLink Ops | *Next.js, FastAPI, Docker, Cryptography, Steganography*

- Engineered a secure data exchange platform with encrypted communication channels.
- Implemented cryptography and steganography techniques for covert data transmission.
- Containerized services using Docker for secure and scalable deployment.

CERTIFICATIONS

Python Django Tutorial | SkillUP | 2025

Web Development Professional Certification | MTF Institute | 2024

Python Fundamentals | Great Learning Academy | 2024

Data Science Foundations | Great Learning Academy | 2024

Data Analytics | Warriors Way | 2024

PowerBI Micro Course | Skill Course | 2024

TECHNICAL SKILLS

Languages: Java, Python, C, SQL , JavaScript, HTML/CSS

Frameworks: Django, Django REST Framework, Node.js, Express.js

Databases: PostgreSQL, MySQL, MongoDB

Developer Tools: Git, Docker, VS Code, PyCharm, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib, JWT, OAuth 2.0
