SUMMARY

Passionate Computer Science student with strong foundations in Data Structures and Algorithms and solid understanding of Object-Oriented Programming principles. Proficient in Java application development with hands-on experience building real-world projects. Solved 200+ coding problems on LeetCode, demonstrating strong problem-solving and analytical skills

PROJECTS

Smart Library Management System (Console-Based)

- Developed a Smart Library Management System using Java to manage book records with add, update, delete, issue, and return functionalities.
 - Implemented efficient search operations using ArrayList and HashMap to find books by title or author.
 - Integrated fine calculation logic and ensured data persistence using file handling techniques.
 - Applied strong Object-Oriented Programming principles, collections framework, and exception handling to build a robust console-based application.
- Any University, Any City*

Student Record Management System with Sorting & Searching

- Cleaned and analyzed healthcare data
- Built data visualizations for monthly team reports
- Identified trends in patient feedback that led to 15% improvement in user satisfaction
- Documented analysis process for reproducibility and team reference

Banking System Simulation (Object-Oriented Design Based)

- Designed a Banking System Simulation in Java supporting Savings and Current accounts with deposit, withdrawal, and interest calculation features.
- Implemented transaction history tracking using Java Collections for efficient data management.
- Applied core Object-Oriented Programming concepts including inheritance, abstraction, and encapsulation.

EDUCATION

Bachelor of Science in Computer Science

September 2023 - May 2027

- GPA: 9.14, Relevant Courses: Data Structures, Web Dev, Databases, OOPs

SKILLS

Languages	Java, C , Python
Tools/Frameworks	SpringBoot , Django.
Databases	PostgreSQL(pgAdmin) , MongoDB (NOSQL).
Other Skills	Strong problem solving , Analytical , DSA , Logical and Reasoning.

ACHIEVEMENT

Google Cloud Arcade Facilitator Program

March 2025 - May 2025

- Successfully completed multiple cloud-based hands-on labs and technical challenges.
- Earned swags for active participation and performance in the program.
